Description

Patented "flow-through" sump design lets liquid pass freely from one sump to another to help you comply with containment regulations

Modular design features exclusive bulkhead fittings and predrilled ports to connect to other decks; ready to use as soon as they arrive

Mix and match the sections you need to fit your space and help meet sump capacity requirements; special tools and hardware to connect sections is included with each system

Low-profile 15cm design is easy to load or unload; pumps and funnels are easy to access

Low-density polyethylene (LDPE) construction resists UV rays, rust, corrosion and most chemicals
