Description

Layers of 100% polypropylene are thermally bonded to make PIG Mat the strongest mat on the market; won't rip, tear or fray even when saturated

Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup

Highly absorbent, fine-fibre construction won't leave behind liquids or fibre residue

Heavy-weight construction delivers greater durability and absorbency for demanding tasks and large-volume cleanups

Dispenser box makes mat easy to access, carry and store while protecting contents from dirt and moisture
