Description

Exclusive dimple pattern speeds wicking of liquid throughout mat for faster, easier cleanup

Highly absorbent, fine-fibre construction won't leave liquids or fibre residue behind

Flame-resistant material won't burn immediately like untreated cellulose mats; melts when exposed to high heat whilst on the job

Can be wrung out and incinerated after use to reduce waste or for fuels blending

Heavy-weight construction delivers greater durability and absorbency for demanding tasks and large-volume cleanups
