Sold as	0

Description

Protect personnel and equipment from overhead leaks by draining/diverting liquids via a drainage hose that acts as a downspout

Flow rate is 12,6 litres/minute when used with a 1,2cm ID Drainage Hose (sold separately)

4 heavy-duty grommets for easy installation and tear prevention

Nonpermeable tarp is vinyl coated for strength and durability; resists punctures, UV and mildew for long life

Sewn-in magnets allow for easy, fast deployment anywhere that metal is present

Choose black, white or yellow
